

Maths

We will start the year learning all about **Place Value**. We will sort, compare and order numbers within 10.

We will then apply this knowledge to **addition and subtraction**, understanding the part, part, whole model, writing number sentences and using number bonds.

Science

Animals including humans (senses)

During our science lessons we will learn all about our five senses and identify which parts of the body do which job. We will also look at how we use our senses in everyday life.

PSHE

Being me in my world

During this unit we will understand that we all have a right to be safe and recognise the importance of having rules and making good choices.

Computing

As we start the new year, we will develop an understanding of computer systems how they can help us in everyday life.

English

Egg Box Dragon by Richard Adams

The aim of this unit is to write about what happens next in this wonderful story.

Can bears ski? By Ted Hughes

This story will help us to write a book review, saying what we liked best.

PE

During PE we will learn the basics of movement.

During dance lessons we will move in different ways to the count of 8.

We will also learn how to develop our control when performing different balances.

Ball skills will also be a focus in PE and we will develop our skills to roll and kick a ball with increasing accuracy.

History - Toys

During this unit we will think about our own toys and compare them to toys from the past. We will consider if our toys are the same as the ones our parents or grandparents had? We will think carefully about what the toys are/were made of?

Art/DT

Our Art lessons will help us learn about primary colours. We will then have lots of fun colour mixing them to make secondary colours.

Music

Songs, chants and rhymes

Music this half term will help us to sing collectively and understand the role of a conductor.

French

This half term we will learn French salutations and simple classroom instructions.

RE

Philosophy

During this Philosophy unit we will consider what our senses tell us about the world of religion and belief?
