ENRICHMENT STRATERGY

BUTTSBURY
PRIMARY SCHOOL
AN ACADEMY SCHOOL

Approved by:	Headteacher
Last reviewed on:	Autumn 26
Next review due by:	Autumn 27

1. Strategy Statement

At Buttsbury Primary School we believe that a rich program of enrichment is an essential part of every child's education. Enrichment opportunities help pupils develop character, confidence, resilience, creativity, leadership, teamwork and wider life skills while enhancing academic learning and wellbeing, preparing them for future life and work.

Our enrichment offer is designed to ensure that all pupils, regardless of background, need or circumstance, have access to high-quality experiences that broaden horizons and foster personal development. Enrichment opportunities at Buttsbury will encompass a wide range of activities and experiences that exist beyond the curriculum, either linked directly to the curriculum (co-curricular) or covering skills, knowledge and activities beyond the curriculum (extra-curricular).

This policy reflects the principles set out within the DfE Enrichment Framework for Schools and Colleges (2026) and supports our commitment to providing a broad, balanced and inclusive education.

2. Aims

The aims of our enrichment programme are to:

- Provide opportunities beyond the statutory curriculum.
- Extend pupils' interests, talents and aspirations.
- Promote personal development and wellbeing.
- Support pupils in developing wider life skills.
- Encourage participation, belonging and inclusion.
- Foster positive relationships with the local community.
- Ensure equitable access for all pupils.
- Prepare pupils for future education and life experiences.

3. Definition of Enrichment

Enrichment includes planned experiences and opportunities that enhance pupils' personal development. Enrichment may be delivered within timetabled lesson time or outside of it (for

example, lunchtime, before or after school, weekend events). Enrichment activities may be delivered by school staff, or external providers, and can include peer leadership with support and guidance from staff.

Enrichment is categorised into the following five areas:

- Civic engagement, for example; volunteering, debating, school and college democracy, community engagement
- Arts and Culture, for example, taking part in, and having live experience of; music, art, dance, theatre, other expressive arts, visits to museums and galleries
- Nature, Outdoors and Adventure, for example time outdoors, climate education and sustainability projects, gardening, residentials and camps
- Sport and Physical Activities, for example participating in individual and team sports, physical activities like dance, fitness activities or cycling, representing the school or college, attending live events
- Developing Wider Life and Future Skills, for example digital literacy, STEM clubs, enterprise, cooking, and managing finances

4. Enrichment Entitlement

Every pupil at Buttsbury Primary School will have access to opportunities across the five enrichment categories. The table below sets out the minimum universal enrichment experience that all children will have whilst at Buttsbury.

	Universal Opportunities
Civic Engagement	Having a sense of belonging to a community by being a member of a schoolhouse Engaging in school council democratic voting
Arts and Culture	Experience a live performance of acting, singing and/or dancing Visit at least two different religious places of worship
Nature, Outdoors	Have the opportunity to go on a school residential trip

and Adventure	Develop climate literacy skills and knowledge
Sports and Physical Activity	Have access to a range of sporting clubs Opportunities to represent the school in sporting competition
Developing Wider Life and Future Skills	Develop digital literacy and online safety skills and knowledge Engage in wellbeing and mindfulness activities

The annual provision map will show where each entitlement is delivered, by year group and term, and whether it is universal, targeted or optional.

5. DfE Benchmark Alignment

Our enrichment offer will be developed in line with the eight DfE benchmarks and reviewed using the DfE Enrichment Provision Self-Assessment Tool.

Benchmark 1: Strategically Aligned

The school's enrichment programme is closely connected to its vision, values, and improvement priorities. Leaders and trustees oversee its development to ensure it supports both curriculum aims and wider school goals.

Benchmark 2: Broad and Well-Rounded

Pupils are offered a wide range of enrichment opportunities that cover different areas of development. Activities are planned to build progressively as pupils move through the school and are available throughout the year.

Benchmark 3: Well-Communicated

The school actively promotes enrichment opportunities and keeps the community informed about participation and achievements. Successes are celebrated regularly to encourage engagement and recognise pupil accomplishments.

Benchmark 4: Shaped by the Community

Enrichment provision is informed by the views and interests of pupils, parents, and the local community. Feedback is used to ensure activities remain relevant, meaningful, and responsive to local needs.

Benchmark 5: Accessible and Engaging

The school works to ensure that all pupils can participate fully in enrichment opportunities. Barriers to involvement are identified and addressed, with particular attention given to SEND and disadvantaged pupils.

Benchmark 6: Partnership Working

The school enhances its enrichment offer by collaborating with external organisations and educational partners. These partnerships provide pupils with broader experiences, expertise, and opportunities beyond the school environment.

Benchmark 7: Outcomes-Focused

The impact of enrichment is regularly evaluated to understand how it supports pupils' attendance, wellbeing, confidence, leadership skills, engagement, and personal development. Evidence gathered is used to demonstrate value and inform future planning.

Benchmark 8: Continually Improving

The school reviews its enrichment programme annually and uses participation data to identify strengths and areas for development. Improvement priorities are set and progress is reported to governors to ensure the provision continues to evolve and improve.

6. Inclusion and Equal Opportunities

We are committed to ensuring all pupils can participate in enrichment opportunities. We will monitor participation and engagement levels ensuring that children who are disadvantaged, SEND, young carers, EAL or vulnerable are able to access opportunities in line with their peers.

We will:

- Ensure reasonable adjustments are planned early with the pupil, family, SENCo and provider where appropriate.

- Ensure that no pupil is excluded from a universal entitlement solely because of cost; leaders use available school, pupil-premium, sport-premium or charitable support lawfully and transparently.
- Ensure the existing pupil-premium strategy published on the school website — a funded in-school clubs per term, school trips funded and up to 50% contribution towards residential trips — is communicated sensitively to eligible families and reviewed for sufficiency.
- Information is clear about age range, timing, cost, equipment, expectations, accessibility and how to ask for help.
- Selection for teams, performance or limited-capacity activities is fair and transparent; alternative development opportunities are considered.

7. Roles and Responsibilities

Trustees	• Monitor participation and impact. • Ensure enrichment supports school priorities.
Headteacher	• Champion enrichment across the school. • Ensure strategic oversight. • Allocate resources appropriately
Enrichment Lead	• Coordinate the enrichment programme. • Maintain participation records. • Evaluate impact. • Liaise with external partners
Staff	• Support enrichment opportunities. • Promote participation. • Record and celebrate achievements
Pupils and Parents	• Participate positively. • Respect others and resources. • Contribute ideas for future provision

8. Monitoring and Evaluation

The school will evaluate:

- Participation rates
- Vulnerable groups participation
- Pupil feedback
- Parent feedback
- Staff feedback
- Attendance data
- Behaviour data
- Enrichment outcomes

Monitoring and evaluation will be undertaken alongside the DfE Enrichment provision self-assessment tool and used to identify enrichment development priorities.

Data will be reviewed termly by school leaders and reported annually to trustees.

9. Recording and Celebrating Achievement

The school will recognise and celebrate enrichment through our established channels of communication: assemblies, newsletters, displays, school website and social media. Recognition will reflect all five areas of enrichment.

10. Three-year Implementation Plan

Phase	Key Actions	End of Year Outcome
2026 – 27	Complete DfE self-assessment; create provision map; refine participation register and tracking system; agree baseline; audit access/communication; establish pupil reflection; include milestones in SDP.	Reliable baseline, clear entitlement, accountable leadership and early identification of gaps.
2027 – 28	Use first full-year data to target gaps*; refine	Participation and

	partner reviews; broaden underrepresented DfE areas/year groups. **Identify opportunities for increased student enrichment leadership, develop more external links within the community.*	communication systems become routine; targeted actions respond to evidence.
2028 – 29	Evaluate three-year trends; measure impact with pupil case studies and contextual data; benchmark provision; develop sustainable partnerships; consult on next strategy.	Demonstrable improvement in equitable reach, breadth and quality; next cycle based on evidence.
